MEDICINAL.

The lost child, who presently finds his way home in the policeman's protecting arms, is hugged to his mother's heart with a new joy. But the mother's heart is empty as her arms when her children are lost for life. How many a woman goes through such an experience, appealing in vain for help to local doctors, who confess that they are "puzzled" to understand the cause of the trouble.

In similar cases

Dr. Pierce's Favor-

Dr. Pierce's Favor-ite Prescription has been used with such success that its record com-mends it to every woman whose chil-dren fail of vitaldren fail of vital-ity. "Favorite Prescrip-tion" gives the mother strength to give her child. It strengthens the female organism, giving great elasticity to the organs of mater-nity, and making the baby's advent practically painless. It is the true woman's medicine, es-ularity, drying weakening

panniess. In the texture promises weakening drains, and healing inflammation.

"I can cheerfully recommend Doctor Pierce's Favorite Prescription as the best medicine for women." writes Mrs. Mary Murdock, of 220 Taylor St., Topeka, Kansas. I am the mother of ten children and only one living—the tenth one. She is one year old and is as well and hearty as can be. She is a beauty. Of my other babies, some were born at right time, but dead, others were premature births; one lived to be one year old, but she was always feeble. I tried what my trouble was. They said I was well and strong. I was examined by surgeons, but they found nothing wrong, and they were puzzled to know what my trouble was. I did not know what the cutier nine months and now I have a fine baby girl, and I cannot praise your medicine enough for the good it did me."

SYMPATHY WITH | HE FILIPINOS To the Editor of the Alexandria Gazette: There are not wanting unequivocal signs of a gradual change in public opinion in the country in regard to Mr. McKinley's infamous crueade against liberty in the Pullippice Islands, and of these none during the past week is so significant as the scoption (74 to 47) by the lower house of the Missouri legislature of the following resolution:

"Whereas the sympathies of the American people go cut to all nations and all peoples strugging for liberty; therefore be it heselved, that the Bouss of Representa-tives of the Forty first General Assembly of Missouri extend sympathy to the people of the libippine Archipelago in their nerous struggle for freedom."

We are persuaded that the hearts of millions of our people echo the sea i-ments here expressed. Why should they not? Is it not contrary to every tradition and principle of the American people to approve of the subjugation of a gallant race who never for a moment acknowledged allegiance to us, and to persist in apreading devastation and ruin among them simply be cause they choose to be free? How is t possible for the countrymen of Washington and of Henry, of James Otts and of Samuel Adams, to do otherwise than give Godspeed to those dusky patricts at the antipodes, who, inspired by the example set them here a century and a quarter ago, are struggling with better justification than ever we had for it-

The Virginia legislature is soon to meet. Is it too much to hope that a resolution like the above may be offer d and passed by it? We undertake to say hat, if so, it will represent the pre-dominant feeling of a State which was vero ner than tru tothe fundamental orincipies of national liberty. Missour

COWS GET INTOXICATED AND FIGHT.

A dispatch from Bronson, Fia., says The most exciting affair in this neck of woods of late was the ferocious combat between two of Farmer Hawking's intoxicated cowathe other day, causing the death of one, after a desperate con-flict that would put a fight of enraged ouls to the blush. Hawkins lives four miles from here, and prides himself upon his fine stock. He makes lote of cane syrup also. In the grinding season most of the farmers in the county make heer for home consumption from the cane "kimmings," but Hawkins is at anoth fatetaller, and wowed he the cane "kinmings," but Hawkins is a staunch tetotaller, and vowed he would give the "skimmings" to his cows. So be filed the trough full the other afternoon, not dreaming of the tragic consequences to follow. Soon two of his pet cows came up and began drinking the strange liquid. It tasted good and the cows wanted more. Soon they had goodly "jags" on, and they then became belligerent.

then became belligerent.

One plunged at the other, trying to get possession of the trough. The other with a bellow of actance gored her satagonist in the side. The first cow turned tail for a moment, and then came rushing back, pinning the other cow to a poet and goring her frightfully in the bellowed and plunged at each other and foug't with deadly earnestness. This was kept up for baif an hour, when one was knocked down in a dying condition, and the other was a dying condition, and the other was just able to walk around and bellow triumphactly. The men focks heard the uproar, but did not get to the scene in time to stop the conflict. Mr. Hawkins is out one cow, but has gained lots of experience.

ragedy of leprosy has been uncovered by the discovery of two skeletons in an abandoned stone quarry near Honolulu. They are the bones of two young na-tives who disappeared several months ago. Keewamahi was a bright Kanaka who was engaged to be married to a who was engaged to be merried to a native girl. Just before the wedding he was found to be a leper, 'nd was ordered to Molokai. The girl pleaded to be permitted to go with him, but in vain. He tried to commit suicide, and while in a bospital recovering from his wounds escaped. She disappeared about the same time. It is supposed that in their despair they decided on suicide, and killed themselves in the deserted operation.
